Agada Friday Omoche

PRODUCT MANAGER

+234 818 056 1424 | mragadaomoche@gmail.com | LinkedIn | Lagos, Nigeria

PROFESSIONAL SUMMARY

Product Manager with a strong technical foundation in Software Engineering and hands-on experience leading end-to-end product discovery, strategy, and development. Built two independent product case studies — SaveTrust (fintech) and ProFolio (professional networking) — demonstrating the ability to conduct user research, author PRDs, define roadmaps, and collaborate across design and engineering. Passionate about creating user-centric digital products that solve real problems and drive measurable business outcomes.

PRODUCT EXPERIENCE

Founder & Product Manager

SaveTrust — Fintech Savings & Budgeting App (Case Study) | *Lagos, Nigeria* Jan **2025 – Present**

- Conducted 20+ user interviews to uncover pain points around budgeting, savings discipline, and financial accountability, directly informing the MVP feature set.
- Synthesised research findings into a clear product vision and strategy, defining SaveTrust's differentiation against 10+ competitor fintech products.
- Authored comprehensive PRDs, user stories, and acceptance criteria covering transaction tracking, budget planning, savings goals, and financial reporting.
- Designed and prioritised the MVP roadmap, defining success metrics including user retention, goal completion rates, MAU, and savings growth.
- Developed a monetisation strategy encompassing subscription-based premium features and advanced financial insights.
- Collaborated with design and engineering stakeholders to translate business requirements into intuitive, user-friendly product experiences.

Product Manager

ProFolio — Portfolio Platform for Tech Professionals (Case Study) | *Lagos, Nigeria* **Jan 2026 – Present**

- Identified key challenges faced by entry-level and experienced tech professionals in effectively showcasing skills and project achievements.
- Conducted market and competitor analysis across portfolio-building platforms and professional networking tools to identify whitespace opportunities.
- Defined product vision, go-to-market roadmap, and growth strategy aligned with user needs and business objectives.
- Authored detailed PRDs covering user onboarding, portfolio creation, project management, recruiter discovery, and profile optimisation.

Traffic Dispatcher

Lagos Rail Mass Transit (Blue Line) — LAMATA | *Lagos, Nigeria* **Aug 2023 – Present**

- Managed real-time operational decisions across multiple concurrent processes, balancing safety, efficiency, and cross-departmental stakeholder communication.
- Coordinated cross-functionally with multiple departments to ensure tasks were executed efficiently and within safety protocols.
- Diagnosed and resolved live operational issues under pressure, applying structured problem-solving and prioritisation to minimise disruption.
- Onboarded and trained new employees on operational roles and procedures, demonstrating the ability to communicate processes clearly and drive team alignment.
- Supervised team members to ensure adherence to standard operating procedures, building experience in accountability, process governance, and people management.
